"Wild California" Art Exhibition. Artists are invited to submit work, celebrating the rich and diverse wildlife and habitat of California. Soaring hawks over Mt. Tamalpais, shorebirds and egrets in the wetlands and owls in our oaks and other feathered friends come to mind. Don't forget four legged beasts, and those that crawl on their bellies, live in water, buzz in the garden and do just fine without a backbone. Let's see California's rich and diverse landscape that is habitat for its creatures.

We welcome artworks that explore the spirit, form and impression of California's wildlife and diverse habitat, whether realistic or abstract. Artists are encouraged to interpret the theme broadly by capturing a moment of flight, a quiet perch or gaze, a tidal pool, stream, lake, ocean, forest, grasslands or open sky that is home and habitat for our wild things. Let your creativity take wing as we honor the wildlife and habitat of California. Two or three-dimensional artwork and all mediums welcome (no video entries for this show).
